

## **USBC Registered Volunteer Program and SafeSport Training**

### **July 7, 2020**

The information for the Registered Volunteer Program will be available when individual log into their BOWL.com community login. If they do not have a community login, they can create one by clicking onto the padlock (login) link in the upper right corner of BOWL.com. Once the secondary page loads, click the link "Sign up for a USBC Community Account". Once logged into their account, click edit profile in the upper right under "My USBC". Then onto Athlete Safety/RVP. You will see the links for SafeSport as well as the background screening.

There is no particular order to complete the two steps. Some have found it more convenient to complete SafeSport first. Keep in mind, a SafeSport Refresher course does need to be complete once per season after they have completed the initial training. For example: SafeSport Trained as of Sept. 2020 (20-21 season), a refresher course would be complete sometime in the 2021-2022 season.

**The fee for NCSI to complete the background screening will be \$31.00 starting August 1, 2020.**

Please let me know if you have further questions or concerns.

### **July 15, 2020**

SafeSport and SafeSport refresher courses can be taken any time after August 1. but prior to July 31 the following year. To keep all on the same schedule, it is preferred to complete SafeSport at the start of the season (August).

The renewal of their background screening, if they are more than 60 days out from their expiration date, NCSI will not permit them to complete a new screening.

Please let me know if you have further questions or concerns.
